Principal's foreword

Introduction

Kedron State School offers a service in accordance with Education Queensland’s overarching objective to deliver quality education to all Queenslanders.

Kedron State School is an Enrolment Managed School with a designated catchment area. We can now only take students from outside of this area, if capacity exists within the school.

Students, parents and school staff work collaboratively together at Kedron to make the school the best possible place for learning for the students in our community.

The information below provides a snapshot of our school for the 2012 school year and provides some projections for the 2013 school year and beyond.

School progress towards its goals in 2012

Reading

Teachers set reading targets for individual students to ensure continual student improvement in reading. This process was completed in Student Support Meetings with administrative guidance and support.

To enact the work on these targets, teachers conferenced with students to create goal statements and followed through with instruction to ensure the student knew and understood the strategy and skill improvement required to achieve the reading goal. Reading goals were collated on reading ladders. New goals were set each term or more often if achieved in an earlier timeframe.

The Year 3-7 teachers implemented our newly formed Year 3-7 ‘reading for meaning’, reading program. The program was implemented in all year 3-7 classrooms consistently to ensure the teaching of reading for middle to upper primary school had a greater effect size in student improvement.

Spelling

The whole school took part in the implementation of our Spelling program which incorporates the streaming of Words Their Way, core words, application of spelling words in writing and proof reading. All teachers followed the daily lesson format, assessment schedule and group review timelines.

Numeracy

All classes followed the Australian ‘Curriculum into the Classroom’ Math units in 2012.

The school postponed investigating how target setting and student goals could be used effectively in the area of numeracy with an emphasis on improving math ‘basics’. This will now be investigated in 2012.
National Curriculum

All classroom teachers worked from the C2C documents. As a school we focused on understanding what needed to be assessed, the curriculum intent and varying the learning pathway by differentiating for individuals and or groups of students.

In 2012 our teacher familiarized themselves with the C2C enabling us to define the specifics of how the C2C will look at Kedron State School and adapted, compacted or enhance as required.

Instructional leadership

The Leadership team used a repertoire of Instructional Leadership practices to directly or indirectly effect student improvement.

Developing Workforce Performance

All teaching staff used the Situational Leadership model aligned to the school improvement agenda.

As a school we continued in our journey to create a whole school culture of continuous improvement. In 2012 we established a range of whole school processes, embedded in coaching methodology, which led to new ways of working in which promoted a culture of continuous improvement from the leadership team to the students.

Future outlook

Reading

P & 1 – Revise and redevelop Learning to Read Program.
Year 2 – Design transition reading program from Learning to Read to Reading to Learn.
Year 3-7 – Review and refine Reading to Learn, reading program.
Introduce Warm Ups and Plough Backs to all reading programs.
Introduce the concept of personal reading aligned to reading goal practice and improvement using feedback.

Pedagogical Framework

Develop a school wide pedagogical framework.

Numeracy

Continue to use C2C maths units however class teachers to trial adding a warm up and plough back to lessons.

School Staff Workforce Development

School staff to broaden their understanding of working as ‘One Team’.
School staff to increase their knowledge and understanding of the use of feedback and start to implement as a way of working in the school.

Kids Matter

School to launch and begin working towards becoming a Kids Matter school.

Student counts are based on the Census (August) enrolment collection.

Characteristics of the student body:
Kedron State School is an Enrolment managed school. The Enrolment management process is put in place to ensure that the schools built capacity can meet the needs of the local community. We have been directed to only enrol students from within our catchment area. With the addition of a new classroom, the school enrolment capacity increased to 400 in 2012.

Kedron is an area which is going through a period of urban renewal. House prices in the area are increasing each year as the suburb is seen as a desirable location to live which is close to the city. The demographics of the area are changing as young professional families move into the area.

Along with the shift of professional families to the areas, we have seen an increase in student cultural diversity within the school. We now have an increasing number of families from diverse cultural backgrounds some of which have English as a second language. The schools Indigenous population continues to grow with a small but active group of parents who are supportive of the addition of Indigenous Perspectives in the school.

The increase in young families in the area has created a ‘bottom heavy’ period of growth. Two thirds of our current students are in Prep to Year 3. Most classes are traditional straight classes. We only have five classes in our upper school, classes are a mix of Multi-age and traditional straight classes.

The school is part of Brisbane City councils Active Smart Travel Program. We strongly encourage students to walk, ride or car pool to school to try and decrease the amount of vehicle traffic around the school at peak times of the day. Families are supportive of this initiative and we have seen a significant increase in families actively travelling to school each day.

Students at Kedron State School are well mannered, kind and courteous. They come from families who have a high value of education and are supportive of state schooling.

Curriculum offerings

Our distinctive curriculum offerings
Differentiating the curriculum to provide opportunities to maximize student achievement
You can do it! Social Skills Program
Friends Program in Year 2 and 5
Multi-faceted Music program (classroom music, choirs, recorder ensembles, Instrumental music – woodwind, brass, percussion (concert band) and a P&C supported Strings program -violin, cello and double bass (ensembles)
Strong learning support program linked to inclusive curriculum
Perceptual Motor for Early Phase
School Community Garden linked to Science C2C units
Life Skills program for our Students with Disabilities (II and ASD)

Extra curricula activities
Instrumental Music Program from years 5-7 including Concert Band—lessons and Concert Band
Strings Program offered from Year 2 – financially supported by the P&C
Junior and Senior Choir – performances and participation in competitions
Active After School Communities programs for Early and Middle Phase – two afternoons per week with a new program run each term
Connect to Sport – external provider (one afternoon per week with a new program each term)
Jujitsu – one afternoon per week
Lego Club – lunch time activity run by parent volunteers
District intra-school sport participation – soccer, flipper ball (training and participation)
Options program Year 4-7 based on Multiple Intelligences
Swimming Lessons outside of school hours from a service provider
Tennis lessons run outside of school hours from a service provider
Dance/Drama lessons run outside of school hours from a service provider
Excursions (Prep – Year 7) – relating to the curriculum
Gold Pass behaviour reward activities
Excursions (Prep – Year 7) – offered as enrichment activities for small groups of students

**Camp – Year 6 and 7 (annual)**

**How Information and Communication Technologies are used to assist learning**

Kedron State School integrates the use of computers and other digital technologies into the curriculum by developing the digital pedagogies of its teachers. The school has a number of teachers who already hold a digital pedagogical license. Our focus is not just on ensuring the appropriate numbers of machines in the school but making sure that our teachers can use these tools in the most engaging and effective ways in the classroom to enhance student learning.

In 2012, each classroom had a set of computers appropriate to Education Queensland’s recommendations for student/computer ratio.

In 2012, the school completed the installation of interactive whiteboards in all classrooms.

In 2012, the STLaN and AVT’s for Students with Special Needs, started incorporating the use of iPad technology while working with ESL, SWD and children who require learning support.

**Social climate**

Kedron State School is a very supportive school. As a school we run a variety of programs to assist our students to develop the social and emotional skills required to enable them to participate successfully in life. We believe being proactive is the best method of managing behaviours in the school.

The You Can Do It! Program is used as a whole of school program to help develop students skills in the areas of persistence, organization, getting along, resilience and confidence. All classes in the school have weekly focus lessons on the elements of the program and these are supported by ‘teachable moments’ which teachers identify as real life learning experiences so that children can see the use of the elements of the program in context.

The school also implements the FRIENDS program at certain junctures of learning or as the need arises for smaller groups of students. The school Chaplain supported by the class teacher and parents implements these programs.

The school runs a reflection room for students whose behaviours require some one on one support. The Reflection room is managed by a teacher who counsels students to help them understand their behaviours and works with them to make better behaviour choices in the future.

We believe that programs such as these are an investment in our students both in the short and long term.

Our very low incident of school disciplinary absences is a positive reflection of how the programs are proactively engaging students.

All aspects of the school climate section of the student opinion survey in 2012 were above the state average in satisfaction levels. Students feel safe and happy to attend Kedron State School!

**Parent, student and staff satisfaction with the school**

The School Opinion Survey is administered in term 3 of every school year. Students, parents and staff are asked to rate the school based on 'how satisfied' they are with a range aspects within the school.

Staff – The staff overall level of satisfaction was above the state average in 2012.

Parents – The parents overall level of satisfaction was above the state average range in 2012.

Students - The students overall level of satisfaction was above the state average range in 2012.

Although we would hope to continue to increase the level of satisfaction of all of our school community members each year, one area of the student opinion survey stood out ‘their school gives them opportunities to do interesting things’, as it was the only area in which the school rated below 90% satisfaction. The school will investigate the children’s perceptions of this area.

Our school at a glance

Involving parents in their child’s education

Kedron has an active P&C that takes pride in the school and its achievements. The P&C and the parent body work collaboratively with staff to provide a range of experiences that enhance student learning. In 2012, a dedicated group of approximately 17 parents attend the P&C meetings.

The principal advertises the school based agenda for the P&C meeting in the newsletter the week prior to the meeting to ensure that all parents are aware of the items being discussed. This allows parents the opportunity to attend a meeting and contribute to discussions that they feel are important to them. The principal reports on events that have occurred since the previous meeting, opens up lines of communication for new ideas and consults members for their opinions on those ideas. The School principal also provides a brief recount of items discussed at the P&C meeting in the newsletter the week after the meeting allowing for parents, who do not attend the meetings, to see the outcome of discussion points.

The P&C are very supportive of the school staff and have a genuine interest in working with the school to make the school a better place for students. The school encourages parents to become active participants in their Childs learning. Teachers invite parents into their classrooms to help out in small group work. The learning support teacher offers training sessions for any interested parents to help build their confidence and skills to support their child’s learning either as a classroom helper or as an individual supporting their own child in their own home.

Formal written reporting to parents occurs at the end of Semester 1 and 2. Parent teacher interviews occur at the end of term 1 and term 3. Teachers and parents however are encouraged to keep in contact throughout the school term.

In terms 1 and 3 our teachers open their classrooms up to parents to join with them in celebrating the learning that has occurred in the classroom that term. Our teachers send home a class letter at the beginning of each term detailing the work that will occur in the classroom. Celebrations of learning are our way of engaging parents and showing the outcomes that have been achieved during the term.

Our parents are invited to attend a range of school based activities each year:

- ANZAC day services at the school
- Sporting events – Cross Country, Athletics and swimming carnivals
- Information sessions
- Parent training sessions
- Open days

The school communicates regularly with parents through weekly assembly, newsletters and website updates.

Reducing the school’s environmental footprint

Data is sourced from school’s annual utilities return and is reliant on the accuracy of these returns.

To decrease Kedron State School’s carbon footprint a sustainable energy management plan has been designed. It includes the following: the use of solar panels, paper and printer /toner cartridges and redundant computer components are now recycled, parents are encouraged to use reusable soft pack tuckshop ordering bags to lower the usage of paper bags for tuckshop orders. Walking Wheeling Wednesdays, as part of the school’s Active Travel program, was implemented and lessened car usage by approximately 30% on the majority of these days.

Expenditure on and teacher participation in professional development

The total funds expended on teacher professional development in 2012 were $19900.

This includes the professional development of teaching and non-teaching staff as well as the school based funding required to employ an Instructional Coach to work with teachers.

The major professional development initiatives are as follows:

Instructional Coaching in pedagogy and teaching of reading.
Goal setting to support implementation of reading goals.
Professional development and ongoing support for Australian curriculum and C2C.
Our staff profile

The proportion of the teaching staff involved in professional development activities during 2012 was 100%.

Student Attendance Distribution

The proportions of students by attendance range.

![Attendance Distribution Chart]

Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DET policies, SMS-PR-029: Managing Student Absences and SMS-PR-036: Roll Marking in State Schools, which outline processes for managing and recording student attendance and absenteeism.

At Kedron State School, class rolls are marked twice a day by teachers. Parents of our school are made aware on enrolment that they must contact the school via phone, email or letter, either on the day of absence or the day they return to school to advise us of the reason for a child’s absence.

If a child is away for three or more days, the family is contacted to enquire about the health and whereabouts of the child.

The principal reviews overall absence once a term and sends home reminder letters to individual families as required.

The school also follows advice provided by The Department in relation to Every day Counts.

National Assessment Program – Literacy and Numeracy (NAPLAN) results – our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9
Performance of our students

Our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9 are available via the My School website at [http://www.myschool.edu.au](http://www.myschool.edu.au).

To access our NAPLAN results, click on the My School link above. You will then be taken to the My School website with the following 'Find a school' text box.

Where it says ‘Search by school name’, type in the name of the school whose NAPLAN results you wish to view, and select <GO>.

Read and follow the instructions on the next screen; you will be asked to accept the Terms of Use and Privacy Policy before being able to access NAPLAN data.

If you are unable to access the internet, please contact the school for a paper copy of our school’s NAPLAN results.

Achievement – Closing the Gap

Approximately 8% of the school population at Kedron State School in 2012 were indigenous. Student attendance for this cohort was at 94.9% and all students were retained with the addition of some further families who joined our community during 2012.

During the student support meetings which involve the Learning Support teacher, the Head of Curriculum, the Principal and each class teacher every student’s academic needs is noted and their attendance discussed. As part of these discussions support is given, through the use of CTG funding, to our indigenous students which caters for their academic needs based on their individual data. This support delivered by our teacher aides is targeted according to individual need, supervised and monitored by the class
Performance of our students

teacher and timetabled by the STLaN. Support is given in Numeracy and English in particular reading and its associated comprehension strategies.
